A prior technical inspection to check the rigging points is essential.

School performances for pupils from 11 years + / Only one performance per day (not before 2pm) / We ask the teachers to prepare the pupils to the performance with an educational kit we provide for.

Considering the amount of technical work and the logistics required for setting up the show, it would be unreasonable and environmentally unfriendly to perform less than 2 times. Since the show is adapted to an unrestricted public, for families as well as school children, we believe there is an audience potential for several performances. We can organise workshops and Q&A sessions with your support. Do not hesitate to contact us.

Costs to be borne (to be charged to the venue) by the venue:
